CPSC 473 - Web Programming and Data Management

Spring 2015

Homework Assignment 2, due the week of February 23

Complete the following steps.

1. Complete the exercise on p. 93 of Chapter 3, "CSS Selectors Practice."
2. For each selector in the previous exercise, take a screenshot showing only the selected elements changed to red.
3. Complete the exercise on p. 94 of Chapter 3, "Style the FAQ Page for Amazeriffic."
4. Commit and push the updated `style.css` from the previous exercise to your remote repository on GitHub.
5. Install [Node.js](#). You may want to peek ahead to Chapter 6.
6. Clone the [Gist for `nudge.js`](#).
7. Use Node.js to run `nudge.js` from inside a Git repository.
8. Add [Bootstrap](#) to the HTML generated by `nudge.js`.
9. Using the [Jumbotron Template](#) as an example, style the HTML generated by `nudge.js` appropriately using Bootstrap.
10. Take screenshots of the initial `git status` page and the page showing the results of a `git push`.

<u>Submission</u>

E-mail the following items to csuf.kenytt.net@gmail.com:

1. The selectors from step (1) and screenshots from step (2)
2. A screenshot showing your rendered Amazeriffic FAQ page from step (3)
3. The URL of your GitHub repository containing the updated `style.css` from step (4)
4. The updated code for `nudge.js` from step (9)
5. The screenshots from step (10)

<u>Tips</u>

- If you have a partner, be sure to include the names of both partners in your e-mail.
- Don't forget to set the `Subject:` line of your e-mail correctly.
- If you cannot successfully complete step (7), consider submitting CSS and HTML files for step (9) instead of submitting updated JavaScript code.

<u>Grading</u>

This exercise is worth 10 points, one per completed step.
